

Fiberglass Mesh Specification Sheet

Model, weight, aperture and application reference for fiberglass mesh RFQs.

Use this PDF as a detailed quotation reference. The website product page keeps the buyer-facing summary; this PDF keeps the fuller specification tables and RFQ fields.

Product notes

Field	Reference
Product type	Fiberglass leno fabric with anti-emulsion polymer coating after immersion.
Useful properties	Alkali resistance, flexibility and tensile-strength-oriented reinforcement use.
Applications	EIFS, roofing systems, marble-related applications and construction reinforcement.

Fiberglass mesh model table

Item	Total weight g/m2	Mesh size mm	Weave
YN60	60	5 x 5	Leno
YN75	75	4 x 5	Leno
YN90	90	5 x 5	Leno
YN110	110	4 x 4	Leno
YN130	130	5 x 6	Leno
YN145	145	6 x 6	Leno
YN160	160	6 x 6	Leno

Application and RFQ notes

- Confirm roll width, roll length and quantity.
- Confirm coating and color requirement.
- Send application context, especially for EIFS, stucco, mortar, roofing or marble-related use.
- Packing, labels and destination should be reviewed during quotation.
